

Building a High Performing Team

Duration: 4 - 8 Hours

For
Supervisors
and
Managers

Course Description:

A team's success is directly linked to the efforts of individual players and how well those players get along and work with each other. This program focuses on how to capitalize on strengths, and not allow differences to stand in the way of success.

This course is based upon active learning, with rich, interactive exercises, case studies, applied experiences, and an action planning component.

Learning Objectives:

At the end of this course, participants will be able to:

- Identify personality preference styles and their importance in team processes
- Recognize the 5 stages of team development
- Identify a team's strengths and weaknesses
- Experience team synergy
- Identify team development obstacles
- Recognize the importance of team attitude
- Examine team issues and concerns
- Create an action plan for improvement using company areas of concern

Outcome:

Enhanced team building and maintenance, resulting in higher functioning teams and increased productivity.
